

Brute force power supplies provide high current DC that is continuously adjustable over either 2 to 25 or 5 to 50 volt ranges.

Can be set to constant voltage or constant current operation.

Can be used as battery charger in the constant mode.

Adjustable damping for inductive loads enable units to drive relays, solenoids and motors.

UL/UR CSA■

SINGLE OUTPUT
HIGH POWER
POWER SUPPLIES

Input: 105-130
210-260 V AC
47-63 Hz

LEISTUNGS-NETZTEILE

Maximum power efficiency
75%. Regulation $\pm 0.1\%$.

Controls include: limit
adjust (0-100%), output
voltage adjust (10-100%).
