- ◆ Color: Black
- ◆ Green Lead Wire approx. 112mm long with Spade
- ◆ Contacts: Nickel Plated Brass
- ◆ Material: PVC
- ◆ Flammability Protection: UL 94-U0
- ◆ Japanese DENTORI Approval (T-Mark) File # 41-24338

When exporting your product to Japan or other parts of the world (such as Central America) where 2-wire, unpolarised mains power is typical, it is advisable to include a grounding adapter to ensure that your product will be properly grounded. The grounding adapter shown above is a 3-wire to 2-wire adapter with unpolarised blades. It carries Japanese approvals.
