

**Ignitors for HS-lamps**

**Type: IGNITOR Z 400 S**  
**Item number: 140427**

For high-pressure sodium lamps (HS) and metal halide lamps (HI)  
 Phasing of the ignition voltage: 60-90°el and 240-270°el  
 Load capacity: 20-100pF  
 For luminaires of protection class I and II  
 250g

|                                    |            |
|------------------------------------|------------|
| Nominal rating [V]:                | 220-240    |
| Frequency [Hz]:                    | 50-60      |
| Max. Current [A]:                  | 5,0        |
| Ignition voltage [kV]:             | 4,0-5,0    |
| HS-Lamps [W]:                      | 70(DE)-400 |
| HI-Lamps [W]:                      | 70-400     |
| Internal loss [W]:                 | 3,00       |
| Inherent heating [K]:              | 25,00      |
| Max. casing temperature [°C]:      | 105        |
| Casing material:                   | Aluminium  |
| Casing LxWxH:                      | 76XØ45     |
| Terminals[mm <sup>2</sup> ]:       | 0,75-2,5   |
| prepared for protection class:     | 2          |
| prepared for degree of protection: | IP20       |

Unit: 10 pcs.
